SCHOOL REPORT.

Another school year has passed since last we greeted friends and towns people with our report. It's the same old story do you say? True in part yet we think it varied so as truthfully to represent improvement in many of the schools during the year.

SCHOOLS.

There has been no marked change in our schools the past year from previous years, though an effort has been made to instil into our schools the necessity of more written exercises. We have been much pleased with the result in some of the schools and wish we could say the same of all. In the school at the Centre the large amount of exercises neatly written by the scholars and preserved, after being corrected by the teacher, for our inspection, reflect much credit on the effort of teacher and scholars. In the school at Whiteface there were eighteen scholars under twelve years of age, sixteen of whom at the close of the second term could write simple sentences correctly on the board or on paper.

In accordance with a vote of the district the schools have been of equal length, except the one at East Sandwich. The building committee not having provided a new school-house and the old one being so unfit for use, we were obliged to close the fall term at the end of three weeks. At Birch Intervale we united with Albany as in previous years. No changes have been made in the text books the past year, but a primary work on Manners has been placed in the hands of the teachers who were required to read a lesson from it each week for the scholars to reproduce either orally or in writing.

TEACHERS.

Our teachers have been required to pass written examinations before receiving certificates of qualification. Nine of them were teachers of experience, while four entered upon their duties for the first time. We hope the ideas advanced at our Teachers Institute will stimulate teachers to study methods for the development of mind and a higher tone of morality in our schools, for we believe the soul and life of the school resides in the teacher. We may ascertain the intellectual qualification of a candidate in the few hours required for an examination, but it is only by seeing the result of that teach-

er's work in the school-room, that we are able to judge of his or her fitness for the work.

PARENTS.

We are sorry to report that only fifteen visits have been made by the parents the past year. The seeming indifference on the part of you, parents, to school work is still to be deplored. You are accountable for the tardiness of scholars, and allowing them to remain at home for trivial causes, two of the greatest hinderances to their advancement. A little interest on your part in helping the children to study at home, and an occasional visit to the school-room would enable you to become acquainted with the teacher and his method of instruction and the character of the person under whose influence your children are placed. Your presence and words of kindness and encouragement would be a potent force in spurring the teachers on to better work and grander achievements; while your indifference and lack of sympathy tends to discourage and dishearten them.

DISCIPLINE.

This must be the joint work of both parents and teacher. If the home training be good we find the child coming to the school-room with the habits of prompt obedience and courtesy. Teachers are responsible for whispering and the use of profane and indecent language, and for the defacing of school property, while connected with the school. Your School Board have not been called upon for any special cases of discipline. The success of the school depends very much on the discipline, hence too much stress cannot be laid on this point.

CONDITION OF DISTRICT.

As no money was raised for repairs nothing of importance has been done, save the shingling of the house and shed at the Great Rock. The large number of scholars at the Centre demands that in justice the two schools should be continued, and extensive repairs are needed. The erection of a new building at East Sandwich is an imperative need.

SUMMARY.

The amount of money raised for the support of schools, \$1,229.24, which is less than in previous years as nothing was raised in addition to that required by law. We have had 11 schools of 18 weeks. The whole number of enrolled scholars 262. The average expense of each scholar \$4.58. We believe the school at East Sandwich to be justly entitled to \$35, which still remain in the hands of the town. By paying \$3.75 one scholar has attended school in Holderness, and in three in-

stances we have paid 25 cents per week for scholars to be taught at home, thus saving a much larger amount of transportation fees. In former district No. 13, we have caused a path to be fixed across to No. 8, in which scholars could walk from one to the other unless it was very rainy at which time a team was provided to carry them. The treasurer's report shows the amount paid for transportation in the different localities.

Your School Board have made 66 official visits. And in conformity to the law submit to you the above report together with statistical table and treasurer's report.
